

Hello everyone, thank you very much For taking care of my

daughter AVIANNALYN. You are so kind this is my little message to you all. I hope you like it. first of all

thank you so much to you all. many thanks to the special-word nurses and ICU Nurses and also her doctors who were always there behind me to guide Aviannalyn through her

Recovery. especially since I am a first-time mom you are all there to remind me of what to do and what not to do. thank you because when you see me sad, especially on Aviannalyn's operation day, I would cry all the time

because I was so anxious. But you are there to remind me not to worry and the doctors will take care of her. thank you also to the Janitors who clean our room even though it is always messy. hahaha. thank you also to the guards

who always plays with Avianna especially the 52-year-old woman I don't know her name sorry thank you very much because she is there to play also with her you all treated us well even though we are not from here you guys are very friendly and for the nurses and doctors I have nothing

to say because they are good taking care of their patients

and for the special word nurses I won't give my
phone from now on just to talk to the delivery driver
Hahaha... thank you for the good you did for us.
Thank you very much for your understanding
from now on no one will request rice from the
canteen any more hahaha... thank you to those who
made an effort especially in the canteen just to
give us something to eat. and specially for the
